MARCH

The Children's Voice

2022

Dear friends,

I am so excited to bring you an update about the on-going construction of our 4 storeyed building. When finished, it will have 12 classrooms and 1 big hall on the top. Construction work was affected by the two lockdowns that were imposed in 2020 and 2021 by the Ugandan government. I am, however, now so happy to report that building works resumed fully in December 2021 and we have been able to cast both the suspended slab for the “go down” section and the foundation. On this site, we do have an existing six classroom block that will be the trade school. I am glad to say that we are soon finishing this building. The remaining work includes repairs to the floor, glass fixing, and painting. We have all the needed funds to complete it. The vision from this new direction is to expand Omega by adding a secondary school and a trade school. The 4 storeyed building will house a complete secondary school running from senior one to senior six. The trade school will be housed in the 6 classroom block and courses to be offered include catering, salon and hairdressing, tailoring and design, motor vehicle mechanics, driving, welding and metal fabrication, carpentry, and brick laying. The secondary school students will be allowed to include, in their timetable, short term trainings for a given desired course. This will, at the end of four years of secondary school, allow each student to be fully equipped with a skill. There are thousands of students that are unable to continue to college after secondary school level. A skill acquired can allow them to be self-employed. I humbly say thank you to all of you for the financial support given and any, in future, towards these needed building projects.

Blessings to you.Pastor Fred Tumwebaze

Gifts received by March 16th allow for a timely transfer of funds to Uganda.
