Help! UGANDAS DEATH RATE HAS DOUBLED AND THEY ARE ON FULL LOCKDOWN AGAIN

Dear friends, I hope all is well with each of you and family. Thank you for praying for the world during these hard times. Here in Uganda things are not good as **COVID19** is back again and worse than the first time. We are seeing death in greater numbers than we saw last time. I have lost two close relatives in two weeks' time. And, many families are going through the same all over Uganda. Hospitals are full with not enough oxygen and medicine. The death rate is higher than what is recorded in hospitals as many people die in their homes. We need prayers. The country was put on total lockdown for 42 days on June 6th, with everything closed (that means Omega School is empty and closed) and no movement of people allowed from one district to another. Things are not good for people again as Ugandans are not allowed to open their small businesses in all large towns. In the villages people have food as this is harvest time. **We need to help people staying in towns with some food since they live from hand to mouth. So if they are not working it means they cannot buy food.** Thank you for helping last time. I am even afraid to ask for help again. However, may the Lord lead us all in this. My wife, Joan has been sick but she is now better. The rest of the family is ok with no issues and thank you for the prayers. Blessings to you all as we pray for each other.Fred Tumwebaze

If you feel led, please earmark any extra donations to the category... For Food

Gifts received by August 15th allow for a timely transfer of funds to Uganda.
