FEBRUARY

The Children's Voice

2022

Dear Friends,

Lovely greetings and appreciation from all of us at Omega School. I am overjoyed to bring you the long-awaited news of the re-opening of schools here in Uganda. The government finally allowed for all classes to return on January 10th 2022. It was so exciting to see children report back one by one so that a total of 94 attended on the 10th and each day the number increased until the 28th when children abounded to the tune of 452 students. It a blessing to see school life return after (for some students) two years of closure. Children are now back to serious lessons. When the government declared a lockdown in March 2020, the school routine was adversely affected; children went home lacking teacher supervision and lessons. Since their return, more effort has been applied to see them gain what they had missed.

Our heartfelt appreciation is humbly submitted to all of you for all the prayers and financial support given out of love. We are very grateful and ready to get back to work.

Since our term one begun, we are carrying out COVID 19 preventive measures as below;

- Checking body temperature for all people present at school on a daily basis.
- Carrying out sanitization.
- Ensuring that hand washing is done from the various washing facilities.
- Ensuring that masks are worn by all people in the school.
- Ensuring social distance at all times.

We seek more of your prayers for the protection of children and teachers from diseases mostly covid. At the moment the country is fully open and people are free to carry on their day to day work
Our prayers are with you and may the hand of God keep you safe.
