Joyce Weither UG 41
D.O.B: April 23, 2000

Dear lovely friends, Greetings to you in the hope all is well. Please receive Joyce's story, learning how she is doing today.

At the age of 7, Joyce was enrolled in our sponsorship program. She was in pre-primary for 3 years (2003 – 2005). She graduated to grade one starting her primary education continuing for 7 years and attending from (2006 – 2012).

Joyce was bright and loved school very much. She was so hardworking that she emerged among the top students in her

class - hence excelling to secondary school education. In Secondary School, she worked hard throughout all the four years of that level and passed to join High school for two years. Joyce then began a 3 year bachelor's degree program in the Social Sciences.

During University, she focused on Community Development and Data Management Skills that would later shape her career. She graduated in 2023 determined to use her Education to solve real problems in her community. Today Joyce works at Tembo Steel Fixing Factory in the ICT Department. She manages the Company's Biometrics system handling staff records, pay roll verification and data security.

Life has not been without losses. Last year Joyce lost her father which made her life difficult.

This is how she looks back on her schooling today. "Sponsorship didn't just pay my school fees. It also gave me confidence, a career, and the ability to take care of my Mum." Joyce came from a very poor family but God made it

possible for her to obtain a better future through the love of sponsors.

A Visit from a Sponsor family brings joy and a new bicycle.

In May, 2026 we got blessed by a visit from Lisa and Garrett Willis. They were introduced to their sponsored child at Omega School. It was a real joy to the child and her Mother. We are very grateful to our sponsors for showing such love to these children and please let many more come and share joy with the child they sponsor.
